GENERAL INFORMATION

1. English is the medium of instruction at all levels.

2. The abbreviations used are as follows:

L-T-P = Lecture, Tutorial and Practical hours per week, respectively

Credit = Credit weightage of a subject

Grade = Letter Grade obtained by the student in a subject

SGPA = Semester Grade Point Average

CGPA = Cumulative Grade Point Average

3. As a measure of student performance, a 7 point grading system on a scale of 10 using the following letter grades and corresponding grade points per credit, is followed:

Performance	Letter grade	Grade points per credit
Excellent	Ex	10
Very Good	A	9
Good	B	8
Fair	C	7
Average	D	6
Pass	P	5
Fail	F	0

4.(a) Formula for calculating SGPA:

$$SGPA = \frac{\sum_{i=1}^n c_i g_i}{\sum_{i=1}^n c_i}$$

4.(b) Formula for calculating CGPA:

$$CGPA = \frac{\sum_{i=1}^m c_i g_i}{\sum_{i=1}^m c_i}$$

c_i - Credit weightage allotted to a particular subject.

g_i - Grade-points carried by the letter grade awarded to the student for the subject.

n - Number of subjects registered in a particular semester.

m - Total number of subjects the student registered from the first semester onwards up to and including the eighth semester.

SGPA is rounded off to the second place of decimal and recorded as such. The SGPA indicates the performance of the student in the semester to which it refers.

CGPA is rounded off to the second place of decimal and recorded as such. The CGPA indicates the overall performance of the student from the first semester to the eighth semester.

5. (a) A student is awarded a B. Tech. (Honours) degree on completion of the curricular requirement with a final **CGPA** ≥ 8.50 .

(b) A student is awarded a B. Tech. degree on completion of the curricular requirement, if $5.0 \leq \text{final CGPA} \leq 8.49$.

6. Letter Grades, SGPA and CGPA are not convertible to equivalent percentages.

7. No Rank/Class/Division is awarded.
